

## List of Tables

|                                                                                                     |    |
|-----------------------------------------------------------------------------------------------------|----|
| Table 2.1 Co channel reuse ratio for some value of N .....                                          | 12 |
| Table 2.2 Evolution of UMTS specification .....                                                     | 16 |
| Table 4.1 Parameters of impact femtocell number to SINR<br>GSM .....                                | 46 |
| Table 4.2 Parameters of impact deployment position to SINR<br>GSM .....                             | 48 |
| Table 4.3 Parameters of impact femtocell number &<br>deployment position to SINR GSM .....          | 50 |
| Table 4.4 Parameters of impact GSM macrocell size to SINR<br>GSM .....                              | 53 |
| Table 4.5 Parameters of impact femtocell number to SINR<br>LTE femtocell .....                      | 55 |
| Table 4.6 Parameters of impact deployment position to SINR<br>LTE femtocell .....                   | 58 |
| Table 4.7 Parameters impact of femtocell number &<br>deployment position to SINR LTE femtocell..... | 61 |
| Table 4.8 Parameters of impact GSM macrocell size to SINR<br>LTE femtocell .....                    | 63 |
| Table 4.9 Parameters of impact femtocell number to femtocell<br>throughput .....                    | 66 |
| Table 4.10 Parameters of impact deployment position to<br>femtocell throughput .....                | 69 |

|                                                                                                         |    |
|---------------------------------------------------------------------------------------------------------|----|
| Table 4.11 Parameters of impact femtocell number &<br>deployment position to femtocell throughput ..... | 72 |
| Table 4.12 Parameters of impact GSM macrocell size to<br>femtocell throughput .....                     | 74 |
