

PREFACE

Praise the author to God Almighty, because of His mercy and grace, the author can work on and complete the proposal. The writing of this final project is carried out as a condition that must be met in achieving a bachelor's degree in Industrial Engineering at the Faculty of Industrial Engineering, Telkom University. In completing this final project, the author is very grateful to people who have provided support, guidance, and assistance from various parties. Therefore, the authors are grateful to:

1. Mrs. Murni Dwi Astuti, S.T., M.T. as the 1st advisor who always provide knowledge, insight, support, and prayer to help the author finish this final project.
2. Mrs. Dr. Dida Diah Damayanti, S.T., M.Eng.Sc as the 2nd advisor and as a lecturer who always provide the author with mental support and knowledge around the given field area.
3. For the author's families who always there when the author's needed them the most.
4. For the author's classmates and friends that help the author on another project while the author tries to finish this final project.
5. For the SISPROMASI family who always support and ease the job of the author when finishing this final project.
6. For Pecel Ayam Barokah who always provided the best meal at a reasonable price everyday while the author tries to finish this final project.
7. All parties that directly or indirectly involved in completing this final project proposal that the author cannot mention one-by-one

The author hopes that this final project can bring any positive benefit to the readers and writers despite the fact that this final project is still far from perfect, and the author wishes that any feedback and suggestion are given to this final project to improve in the other time.

Bandung, 1 February 2022
