

LIST OF FIGURES

Figure 2. 1 IoT Layers Structure	5
Figure 2. 2 LoRaWAN Architecture	6
Figure 2. 3 Smart Metering System	7
Figure 2. 4 Architecture of 2 ways Smart Meter	8
Figure 2. 5 Arsitektur Antares	9
Figure 2. 6 Topology LoRa Connectivity in Antares	10
Figure 3. 1 Research Framework	18
Figure 3. 2 Monthly Checking Manually	19
Figure 3. 3 Smart Water Meter Architecture	19
Figure 3. 4 Banyumas Regency's Map	20
Figure 3. 5 Network Planning Procedure	26
Figure 3. 6 Cost Design	27
Figure 3. 7 Smart Water Metering flowIQ® 2100 [28]	28
Figure 3. 8 Wirnet™ iStation Gateway	29
Figure 3. 9 Smart Water Meter LoRa Digital for Antares Services	30
Figure 4. 1 Capacity Planning Calculation Results based on Spreading Factor ..	40
Figure 4. 2 Coverage Planning Calculation Results	41
Figure 4. 3 Comparison Results of Number of Gateways based on Capacity and Coverage Planning	41
Figure 4. 4 LoRaWAN Coverage on the Antares Network	42
Figure 4. 5 Comparison Numbers of Gateway between LoRaWAN Demand and ANTARES	42
Figure 4. 6 Atoll SF10 Simulation Result Map of Banyumas Regency using LoRaWAN Planning	43
Figure 4. 7 Atoll SF Simulation Result Map of Banyumas Regency using Antares Services	43
Figure 4. 8 Coverage Result Data by Signal Level	44
Figure 4. 9 Coverage Result Data by Signal Level of Antares Services	44
Figure 4. 10 Coverage by SNR of LoRaWAN Planning	45
Figure 4. 11 Coverage by SNR of Antares Service	45

Figure 4. 12	Comparison CAPEX and OPEX.....	50
Figure 4. 13	Comparison CAPEX, OPEX and Revenue of LoRaWAN Planning.....	53
Figure 4. 14	Comparison Total CAPEX and OPEX of Antares Service	55
Figure 4. 15	Comparison of Total CAPEX, OPEX and Revenue.....	56
Figure 4. 16	Result Net Present Value	58
Figure 4. 17	Internal Rate Return for Smart Water Metering	59
Figure 4. 18	Cumulative Net Cash Flow of LoRaWAN Planning.....	60
Figure 4. 19	Cumulative Net Cash Flow Antares Service	61
