

LIST OF FIGURES

| | | |
|-----|---|----|
| 2.1 | Comparison between OSI Layer and TCP/IP Layer. | 5 |
| 2.2 | Raspberry Pi is built as the Firewall. | 7 |
| 2.3 | Denial of Service attacks the Devices. | 8 |
| 2.4 | SYN Flood sends the spoofed packets to the victim device. | 9 |
| 2.5 | UDP Flood sends the spoofed packets to the victim device. | 9 |
| 3.1 | System Block Diagram. | 12 |
| 3.2 | Research Flowchart in developing the Smart Security System. | 13 |
| 3.3 | HIPS Snort Algorithm. | 17 |
| 3.4 | VMs are installed on VirtualBox. | 18 |
| 3.5 | Web server is set. | 18 |
| 4.1 | Client Number of Packets before attacked. | 21 |
| 4.2 | Client Number of Packets after attacked. | 22 |
| 4.3 | Average Number of Packets from Attackers. | 23 |
| 4.4 | Percentage of Client Average of Successful Number of Packets when Snort is active. | 24 |
| 4.5 | Comparison of Successful Number of Packets from Attacker. | 25 |
| 4.6 | Percentage of Processed Number of Packets by HIPS Snort. | 25 |
