

## LIST OF FIGURES

2.1	The encoding circuit of $[[5, 1, 3]]$ 5-qubit quantum codes. . . . .	10
2.2	The encoding circuit of $[[7, 4, 3]]$ 7-qubit quantum codes. . . . .	10
2.3	The decoding circuit of $[[5, 1, 3]]$ 5-qubit quantum codes. . . . .	12
2.4	The decoding circuit of $[[7, 4, 3]]$ 7-qubit quantum codes. . . . .	13
3.1	Transmitter and receiver structure of quantum communications with error correction. . . . .	15
3.2	A flowchart to obtain the proposed quantum $[[12, 2, 4]]$ accumulate codes. . . . .	16
3.3	The circuit of transmitter and receiver of the proposed $[[5, 1, 3]]$ perfect quantum accumulate codes. . . . .	19
3.4	The circuit of decoding of the proposed quantum $[[12, 2, 4]]$ accumulate codes. . . . .	20
3.5	The error probability of Pauli group in quantum channels. . . . .	27
3.6	Amplitude damping channel model. . . . .	28
4.1	The QWER performance of the proposed $[[5, 1, 3]]$ quantum accumulate codes and the theoretical. . . . .	50
4.2	The QWER performance of the proposed $[[12, 2, 4]]$ quantum accumulate codes and the theoretical. . . . .	51
