

LIST OF FIGURES

2.1	Steganography Clasiffication	6
2.2	Video Steganography Process in General	7
2.3	First Level of the 2D-DWT [1]	8
2.4	One and two level of 2D-DWT	8
2.5	2D-DWT in Video Steganography	9
2.6	Format Header UDP [2]	11
2.7	Proses H.264 Encoder dan Decoder [3]	12
2.8	Video Coding: Source frames, encoded bitsream, decodec frames [3]	13
2.9	Proses H.265 Encoder dan Decoder	13
3.1	Research Flowchart	17
4.1	Comparison between the H.264 and H.265 codecs when the secret data in the frame is odd.	21
4.2	Comparison between the H.264 and H.265 codecs when the secret data in the frame is multiplies of 3	21
4.3	Odd frame extraction result from H.264 video,at the time of packet drop percentage 0, 3, 5, 10, 15 (From left to right).	22
4.4	Odd frame extraction result from H.265 video, at the time of packet drop percentage 0, 3, 5, 10, 15 (From left to right).	23
4.5	Multiples of 3 frames extraction results from H.265 video,at the time of packet drop percentage 0, 3, 5, 10, 15 (From left to right).	23
4.6	Multiples of 3 frames extraction result from H.265 video,at the time of packet drop percentage 0, 3, 5, 10, 15 (From left to right).	24
4.7	From left to right are the original messages, the extraction results of inserting messages in odd frames, and the results of extracting messages inserting in multiples of 3 frames	24
4.8	Repetition code with N=odd(1,3,5,7...853) and N=multiples of 3(3,6,9,12...853)	25
4.9	MOS in Odd frame (N:1,3,5,7..853)	26
4.10	MOS in Mod=3 frame (N:3,6,9,12..853)	26
