

ABSTRACT

Indonesia is an archipelagic country that is rich in cultural diversity. One of them is the province of West Java which is rich in traditional arts. These traditional arts have existed for generations in society to express themselves, communicate feelings and give meaning to other individuals. So that activities related to art belong to every human being, and in general art also reflects on humans.

One form of art is performing arts, in West Java there are various traditional performing arts originating from various regions, such as dance, theatre, karawitan and many more. These kinds of traditional dance arts are included in one of Indonesia's cultural treasures that must be preserved and preserved. One of way is by establishing a forum that can support traditional actors so that the quality of human resources in culture can increase. Unfortunately, in the city of Bandung there is no forum that is able to support all traditional activities ranging according to standards and good visually. Therefore, the hope of this design is to create a forum for the people of the city of Bandung that has a complete supporting space to be able to maintain and preserve traditional arts typical of West Java.
