

## **LIST OF TABLES**

2.1	The throughput value parameter[2] . . . . .	18
2.2	The delay value parameter[3] . . . . .	18
2.3	The perfect classifier . . . . .	20
2.4	The worst possible classifier . . . . .	21
3.1	The hardware specification . . . . .	31
3.2	The software specification . . . . .	31
3.3	The device hardware specification . . . . .	32
3.4	The device software specification . . . . .	32
3.5	The train/test data split parameter in this thesis . . . . .	35
3.6	The dataset soil moisture condition . . . . .	36
3.7	The dataset temperature condition . . . . .	36
3.8	The train/test data split parameter in this thesis . . . . .	36
3.9	The accuracy score parameter in this thesis . . . . .	38
3.10	The confusion matrix parameter in this thesis . . . . .	38
3.11	The classification report parameter in this thesis . . . . .	39
4.1	The hardware test . . . . .	40
4.2	The database page test . . . . .	45
4.3	The total data training and testing in this thesis . . . . .	51
4.4	The parameter calculation in this thesis . . . . .	54
