ABSTRACT

Social inequality is one of the events that is currently being discussed among the public, social inequality is a situation where inequality and imbalance occur in people's lives. Some of the causes of social inequality can occur due to economic problems to a lack of government attention. So from this the author chose the title "VISUALIZATION OF THE "SOCIAL INEQUALITY" PHENOMENA WITH PHOTOGRAPHY AND DIGITAL IMAGING METHODS" which aims to describe the situation that occurs with the phenomenon of social inequality that occurs at this time through the work that the author made using the Photography and Digital Manipulation method which the author pays attention to the composition and also the aesthetic elements so that this work can have a deep impression and meaning for anyone who sees this work. And the result is that the author can complete the work on this final project in accordance with the time that has been set.

Keyword : Social Inequality, Social Jealousy, Public.
