

## PREFACE

All the praise and gratitude are given to our Almighty God, Allah SWT, for His grace and guidance and our blessing to Great Prophet, Nabi Muhammad. In this final project of **SENTIMENT ANALYSIS OF GENSHIN IMPACT ON TWITTER USING NAÏVE BAYES**, author would like to show their gratitude to those who have helped and supported while writing the final project. The author received a lot of encouragement, suggestions, and guidance, directly or indirectly, from various people. Here the as my appreciation goes to:

1. Faqih Hamami, S.Kom, M.T. , as the author's first advisor lecturers who gave his time, effort, and provided motivation. Thank you for listening to all my concerns and helping a lot through everything.
2. Prof. Dr. Irfan Darmawan, ST., M.T. as second advisor lecturer for author who gave his time, effort, and provided motivation too. Thank you for listening to all my concerns and helping a lot through everything.
3. All faculty staff and lecturer that helped me a lot through my university life.
4. My family—*Ayah, Mama, and my three sisters*—I would like to say thank you for all the never-ending patience. Thank you for always watching me to grow be a better person I am. I know, I made a lot of mistakes in the past, may some in the future, but to accept me as who I am until now, to always open your heart for forgiveness.
5. Through COVID-19 break, I made virtual friends that keep me sane for the entire pandemic. Kudos to these people: Anneliese, Michael, Kalandra, Ibeng, Hengkara, Viory, Millard, Dei, Skala, Wira, Biru, Abin, Iyel, Divya, and friends I can't mention. As the last warrior of SI-40-INT, I want to say my gratitude to all my classmates. Especially for Athaya and Rozzaq, usually my groupmates in every final task and Melani who always sent me warm messages.

6. Honorably mentioned, thanks to my idol, &TEAM. Great inspiration through my depression.

Last, the author would like to apologize for the imperfectness of this final project. And because of it, the author would like to receive any suggestions and criticisms for better improvement in writing research.
