

ABSTRACT

This final task is a craftsmanship of a audiovisual art that are titled “Visualization Experimental Film Titled “INSIDE” that are insecurity themed”. Audiovisual chosen so that writer can convey audio and visual as appropriate as possible. Experimental film is chosen by writer as a method and media for explaining clearly the experiment about blank space that writer want to perform as a sign of feeling afraid, flustered, quite, and dark as an effort to displays the insecurity. Insecurity is caused by 2 factors, internal and external. Internal factor that caused insecurity are habits to compare their self. They often hate when they see someone who more successful then they are. They also look at their flaw so often. This is visualize as mirror in this film. And external factor is the negative statement from society can make somebody feeling insecure. This making people who get insecurity can be feeling down, not confident, gloomy, and tend to hate and shamed of their self. This experimental film are formed with the performance of acting of the actor which is writer herself as a character who is awkward, shy, and insecure. The character she become is often lower her head. This film are made with black and white format so the film will deliver a darker mood and tone.
