

ABSTRACT

PT Borneo Indobara (BIB) is one of the largest mining companies in Kalimantan. With thousands of existing employees and integration with all partner companies that currently do not have a good administrative management system, errors often occur in data processing. The UGEMS website will later manage employee administration starting from employee data, employee health data and employee job desks at the company. This website is a portal for several other applications that have a simple User Interface (UI) display and are adapted to the needs of the user and PT BIB and company partners such as UHEALTH for managing Employee Health Data and Employee Safety (IH Management) and UDREAM for managing ideas. project proposed by all employees of PT BIB.
