List of Tables

Table II.1-1 Preceding/ Related research 6
Table II.3-1 Fintech Categories 8
Table II.6-1 DevOps Key Component 15
Table II.7-1 DevOps Framework Comparison 20
Table III.3-1 Research Data Collection 29
Table IV.1-1 Data Collection about FintechCo 34
Table IV.3-1 Model Score Result Using COBIT 2019 Design Toolkit 50
Table IV.3-2 Priority Category Based On COBIT 2019 DevOps 51
Table IV.3-3 Final Prioritazion Model 52
Table IV.3-4 Assessment Criteria Component 52
Table IV.3-5 Process Capability Scoring 53
Table IV.4-1 Seven Components Component 53
Table IV.4-2 Component Process Assessment for DSS05: Managed Security Services 54
Table IV.4-3 Component Process Assessment Result for BAI03: Managed Solutions Identification and Build 55
Table IV.4-4 Component Process Assessment Result for DSS03: Managed Problems 56
Table IV.4-5 Organization Structure Component Assessment Result 57
Table IV.4-6 Policies, Principles, and Frameworks component assessment result for DSS05 59
Table IV.4-7 Policies, Principles, and Frameworks component assessment result for DSS03 59
Table IV.4-8 Policies, Principles, and Frameworks component assessment result for BAI03 60
Table IV.4-9 Information component assessment result for DSS05 60
Table IV.4-10 Information component assessment result for DSS03 62
Table IV.4-11 Information component assessment result for BAI03 63
Table IV.4-12 Culture, Ethics, and Behaviour assessment result on DSS05 64

Table IV.4-13 Culture, Ethics, and Behaviour assessment result on DSS03 65
Table IV.4-14 Culture, Ethics, and Behaviour assessment result on BAI03 65
Table IV.4-15 People, Skills, and Competencies component for DSS05 66
Table IV.4-16 People, Skills, and Competencies component for DSS03 66
Table IV.4-17 People, Skills, and Competencies component for BAI03 67
Table IV.4-18 Application, infrastructure, and service component assessment result for DSS05 68
Table IV.5-1 Process component gap analysis for DSS05 69
Table IV.5-2 Process component gap analysis for DSS03 70
Table IV.5-3 Process component gap analysis for BAI03 71
Table IV.5-4 Organization structure component gap analysis result for DSS05 72
Table IV.5-5 Organization structure component gap analysis result for DSS03 72
Table IV.5-6 Organization structure component gap analysis result for BAI03 72
Table IV.5-7 Policies, Principles, and Frameworks component gap analysis result for DSS05 73
Table IV.5-8 Policies, Principles, and Frameworks component gap analysis result for DSS03 73
Table IV.5-9 Policies, Principles, and Frameworks component gap analysis result for BAI03 73
Table IV.5-10 Information component gap analysis result for DSS05 74
Table IV.5-11 Information component gap analysis result for DSS03 75
Table IV.5-12 Information component gap analysis result for BAI03 76
Table IV.5-13 Culture, Ethics, and Behaviour gap analysis result for DSS05 77
Table IV.5-14 Culture, Ethics, and Behaviour gap analysis result for DSS03 77
Table IV.5-15 Culture, Ethics, and Behaviour gap analysis result for BAI03 78
Table IV.5-16 People, Skills, and Competencies component gap analysis result for DSS05 79
Table IV.5-17 People, Skills, and Competencies component gap analysis result for DSS03 79

Table IV.5-18 People, Skills, and Competencies component gap analysis result for BAI03 79
Table IV.5-19 Application, infrastructure, and service component gap analysis result for DSS05 80
Table IV.5-20 Application, infrastructure, and service component gap analysis result for DSS03 81
Table IV.5-21 Application, infrastructure, and service component gap analysis result for BAI03 81
Table IV.6-1 Criterion for Potential Improvement 81
Table IV.6-2 Potential Improvement Aspect: People for DSS05 83
Table IV.6-3 Potential Improvement Aspect: People for DSS03 83
Table IV.6-4 Potential Improvement Aspect: People for BAI03 84
Table IV.6-5 Potential Improvement Aspect: Process for DSS05 85
Table IV.6-6 Potential Improvement Aspect: Process for DSS03 86
Table IV.6-7 Potential Improvement Aspect: Process for BAI03 87
Table IV.6-8 Potential Improvement Aspect: Technology for DSS05 87
Table IV.6-9 Potential Improvement Aspect: Technology for DSS03 88
Table IV.6-10 Potential Improvement Aspect: Technology for BAI03 88
Table IV.7-1 RRV Priority Instrument 89
Table IV.7-2 RRV Scoring for Potential Improvement 90
Table IV.8-1 Priority Based on Gap Score 92
Table IV.8-2 Improvement Priority Aspect: People 92
Table IV.8-3 Improvement Priority Aspect: Process 93
Table IV.8-4 Improvement Priority Aspect: Technology 94
Table V.1-1 Roles Responsibilities based on SFIA 8 97
Table V.1-2 RACI Assignment for Recommended Organization Structure Based on COBIT 2019 DevOps 99
Table V.1-3 Recommendation for Skills Improvement 104
Table V.1-4 Tools Description 110
Table V.1-5 Tools Comparation for SIEM and SOC Service 111

Table V.3-1 Results of the Impact of the Design Recommendations given in DSS05 117
Table V.3-2 Results of the Impact of the Design Recommendations given in DSS03 118
Table V.3-3 Results of the Impact of the Design Recommendations given in BAI03 118
Table V.3-4 Final Score for Capability Achievement after Recommendation 119
Table V.3-5 Roles and Responsibilities Addition Recommendation..... 119
Table V.3-6 Policies, Principles, and Frameworks Component for DSS05 at FintechCo 121
Table V.3-7 Policies, Principles, and Frameworks Component for DSS03 at FintechCo 122
Table V.3-8 Policies, Principles, and Frameworks Component for BAI03 at FintechCo 122
Table V.3-9 Information Component at FintechCo 123
Table V.3-10 Culture, Ethics and Behavior Component Recommendation for FintechCo 128
Table V.3-11 People, Skills, and Competencies Component Recommendation for FintechCo 129
Table V.3-12 Application, Infrastructure, and Service Component for FintechCo .. 132
