

ABSTRACT

Effectiveness of implementing QRIS for inventory and sales in increasing inventory and sales at PT Mulya Jaya. This research aims to find out how the QRIS method can improve the inventory system at PT Mulya Jaya. The type of research used is a qualitative research method, which is a form of research that aims to provide a general overview by exploring data and facts in the field, in order to obtain factual information from the research location in the form of written or spoken words from sources. The data collection techniques used were observation, interviews and documentation. The research results show that the implementation of QRIS can improve the system, making it easier to check stock of goods in the warehouse, inventory and sales. Achieving targets where data from system results, inventory and sales using QRIS has been seen to be effective.

Keywords: Inventory and Sales using QRIS.
