

## DAFTAR GAMBAR

|   |    |
|---|----|
| Gambar 2.1 Pola Radiasi .....   | 13 |
| Gambar 2.2 Proses Pembentukan menjadi antena <i>patch</i> logo Tel-U .....              | 13 |
| Gambar 2.3 Contoh <i>Aesthetic</i> Antena .....   | 15 |
| Gambar 2.4 E96-DTU (433L20-485).....  | 16 |
| Gambar 2.5 Ilustrasi miniaturisasi antena .....   | 16 |
| Gambar 2.6 Kendaraan Tanpa Awak Telkom University .....                                 | 17 |
| Gambar 3.1 Diagram Alir Pengerjaan Proyek Akhir .....                                   | 19 |
| Gambar 3.2 Hasil simulasi <i>return loss groundplane existing</i> .....                 | 21 |
| Gambar 3.3 Hasil simulasi VSWR <i>groundplane existing</i> .....                        | 21 |
| Gambar 3.4 Pola radiasi <i>groundplane existing</i> .....                               | 21 |
| Gambar 3.5 <i>Groundplane</i> antena <i>existing</i> .....                              | 22 |
| Gambar 3.6 Hasil simulasi <i>return loss groundplane L-Shape</i> .....                  | 22 |
| Gambar 3.7 Hasil simulasi VSWR <i>groundplane L-Shape</i> .....                         | 23 |
| Gambar 3.8 Pola radiasi <i>groundplane L-Shape</i> .....                                | 23 |
| Gambar 3.9 <i>Groundplane L-Shape</i> .....   | 23 |
| Gambar 3.10 Hasil simulasi <i>return loss double L-shape</i> .....                      | 24 |
| Gambar 3.11 Hasil simulasi VSWR <i>double L-shape</i> .....                             | 24 |
| Gambar 3.12 Pola radiasi <i>groundplane double L shape</i> .....                        | 25 |
| Gambar 3.13 <i>Groundplane double L-shape</i> .....                                     | 25 |
| Gambar 3.14 Hasil simulasi <i>return loss 9 ring shape</i> .....                        | 27 |
| Gambar 3.15 Hasil simulasi VSWR <i>9 ring shape</i> .....                               | 27 |
| Gambar 3.16 Pola radiasi <i>groundplane ring shape</i> .....                            | 27 |
| Gambar 3.17 <i>Groundplane ring shape</i> .....   | 28 |
| Gambar 3.18 Antena logo Tel-U dengan parasitik tanpa <i>patch</i> .....                 | 29 |
| Gambar 3.19 Hasil simulasi <i>return loss</i> dengan parasitik tanpa <i>patch</i> ..... | 30 |
| Gambar 3.20 Hasil simulasi VSWR dengan parasitik tanpa <i>patch</i> .....               | 30 |
| Gambar 3.21 Hasil simulasi <i>gain</i> dengan parasitik tanpa <i>patch</i> .....        | 30 |
| Gambar 3.22 Antena logo Tel-U dengan <i>patch</i> .....                                 | 31 |
| Gambar 3.23 Hasil simulasi <i>return loss groundplane U-shape</i> .....                 | 32 |
| Gambar 3.24 Hasil simulasi VSWR <i>groundplane U-shape</i> .....                        | 32 |
| Gambar 3.25 Pola radiasi <i>groundplane U-shape</i> .....                               | 33 |

|  |    |
|--|----|
| Gambar 3.26 <i>Groundplane U-shape</i> .....   | 33 |
| Gambar 4.1 Hasil sunting tampak depan.....   | 34 |
| Gambar 4.2 Hasil sunting tampak belakang.....  | 34 |
| Gambar 4.3 Hasil pabrikan antenna logo Tel-U .....   | 36 |
| Gambar 4.4 Skema Pengukuran S-Parameter.....   | 36 |
| Gambar 4.5 Hasil pengukuran <i>return loss</i> antenna logo Tel-U <i>groundplane Ring shape</i> .... | 37 |
| Gambar 4.6 Hasil pengukuran VSWR antenna logo Tel-U <i>groundplane ring shape</i> .....              | 37 |
| Gambar 4.7 Perbandingan <i>return loss groundplane ring shape</i> .....                              | 38 |
| Gambar 4.8 Perbandingan VSWR <i>groundplane ring shape</i> .....                                     | 38 |
| Gambar 4.9 Antena 915 Mhz dan 433 MHz .....  | 39 |
| Gambar 4.10 Skema pengujian antenna logo Tel-U sebagai <i>transmitter</i> .....                      | 40 |
| Gambar 4.11 Hasil pengujian antenna logo Tel-U sebagai <i>transmitter</i> .....                      | 41 |
| Gambar 4.12 Skema pengujian antenna logo Tel-U sebagai <i>receiver</i> .....                         | 41 |
| Gambar 4.13 Hasil pengujian antenna logo Tel-U sebagai <i>receiver</i> .....                         | 42 |
