

**Abstract :** The District Attorney's Office (Kejari) is a law enforcement forum, which in general is a central institution in the pattern of criminal law enforcement (center of criminal justice system). The role of the Dumai State Prosecutor's Office, whose jurisdiction covers the city of Dumai, also has the authority to cover its own territory. This institution has an important role in supporting the success of governance in realizing the principles of a rule of law, good legal norms or laws and regulations. Kejari Dumai also has a commitment to the apparatus to carry out professional, integrity, disciplined law enforcement supported by legal support facilities and behavior that is effective and integrated through spatial planning. Systematic interior space design needs to be applied at the State Attorney's Office so that the institution which is a forum for public service can effectively fulfill the tasks and lawsuits carried out which are stimulated by the appearance of the building and the design of the room that supports work safety and productivity for its users. Therefore, the theme carried in this design is related to the approach that has been determined, namely the work activity approach with the theme "clarity of direction", with the hope that the atmosphere of the work space can provide comfort for work activities in the State Attorney's Office. Referring to the theme determined by the author, the designed visual appearance will make users more productive in handling investigations and prosecutions.
