## LIST OF TABLES

3.1	Source of The Required Variable . . . . .	20
3.2	INACBGs Code related to Breast Cancer Treatment . . . . .	23
3.3	The example of merge breast cancer treatment . . . . .	25
3.4	The breast cancer treatments after merging similar treatment . . . . .	26
3.5	The example of merge breast cancer treatment . . . . .	27
3.6	A Part of Event Log . . . . .	28
4.1	The ten most frequent treatments of breast cancer treatment . . . . .	37
4.2	The Five Most Frequent Trace Variants of Breast Cancer Treatment . . . . .	38
4.3	The three shortest and longest average time intervals . . . . .	38
4.4	Performance between Process Mining Algorithm . . . . .	42
4.5	The Three Most Frequent Trace Variants in R Group . . . . .	44
4.6	The Three Most Frequent Trace Variants in R Group . . . . .	45
4.7	The Three Most Frequent Trace Variants in R Group . . . . .	46
4.8	Performance Analysis of Treatment Groups . . . . .	47
4.9	Petri Net Analysis of Treatment Groups . . . . .	47
4.10	Comparison of average elapsed time, average remaining time, and average sojourn time (in days) . . . . .	53
4.11	Waiting Time of General Treatment . . . . .	55
4.12	Waiting Time of R Group . . . . .	55
4.13	Waiting Time of Ch Group . . . . .	56
4.14	Waiting Time of R-Ch Group . . . . .	57
