

LIST OF TABLE

Table 1.1 Stages, activities, and achievement indicators	5
Table 2.1 Comparison between radar systems for respiratory detection	12
Table 2.2 State of the Art	18
Table 4.1 The specification of fmcw radar system	38
Appendix A.1 Summary of data collection for vital sign detection with obstacle in static condition	68
Appendix B.1 Summary of data collection for vital sign detection using fluctuation modeling without obstacle	69
Appendix B.2 Summary of data collection for vital sign detection using fluctuation modelling with obstacle in dynamic condition	69
Appendix B.3 Summary of data collection for vital sign detection using drone height fluctuation with obstacle	70
Appendix G.1 HPF orde comparasion	114
