

LIST OF FIGURES

2.1	Schematics of ToF principle.	7
2.2	TF-Luna.	7
2.3	Technical specification of TF-Luna[1].	8
2.4	Arduino Mega 2560.	8
2.5	Actuator	9
2.6	Specification of Servo Motor GWS03N.	10
2.7	Specification of Stepper Motor Nema17.	10
2.8	Scanning combination of electromechanical scanning[2].	11
2.9	3D point cloud of a car generated by LiDAR[3].	12
3.1	Block diagram of hardware.	14
3.2	Schematic circuit of hardware.	14
3.3	3D view of PCB.	15
3.4	CAD model and prototype of a 3D LiDAR sensor.	16
3.5	Scan data captured by the designed 3D LiDAR using the snake-pattern.	17
3.6	Experimental process.	18
3.7	Spherical coordinates.	19
3.8	Flowchart of Full Scanning Algorithm.	21
3.9	Flowchart of Edge Tracking Algorithm for single item.	23
3.10	Flowchart of Edge Tracking Algorithm for two objects.	26
3.11	3D Point cloud visualization process.	27
3.12	Testing area.	28
4.1	Visualization of condition 1.	32
4.2	Visualization of condition 2.	32
4.3	Visualization of condition 3.	33
4.4	Visualization of condition 4.	34
4.5	Visualization of ETA on two objects.	38
