

ACKNOWLEDGMENTS

Praise be to God Almighty for His blessings and grace, which have enabled me to complete this Final Project entitled “The Adoption of Cypress as Functional Automation Framework for Web Application Testing: A Case Study of Qirby Website” This Final Project is submitted as a requirement for obtaining a Bachelor's degree in the Software Engineering Study Program, Faculty of Informatics, Telkom University.

In the preparation of this Final Project, I realize that many individuals have provided support, guidance, and encouragement. Therefore, I would like to express my sincere gratitude to:

1. Dr. Z. K. Abdurahman Baizal, S.Si., M.Kom., as the Rector/Dean of Telkom University, for the support provided throughout my studies.
2. Dr. Mira Kania Sabariah, S.T., M.T., as the Head of the Software Engineering Study Program, for providing the opportunity and facilities necessary to complete this Final Project.
3. Nungki Selviandro, S.Kom., M.Kom., Ph.D., as my first supervisor, for his invaluable guidance, direction, and motivation throughout the completion of this Final Project.
4. Monterico Adrian, S.T., M.T., as my second supervisor, for his valuable guidance, direction, and motivation during the completion of this Final Project.
5. My beloved parents and family, for their unwavering prayers, love, and support, both morally and materially, throughout my studies.
6. My dear friend and senior, Anita Situmorang, who has been a source of inspiration, a confidant, and provided much assistance and support throughout my studies and the completion of this Final Project.
7. My fellow classmates in the Software Engineering Study Program, who have shared the joys and challenges of our academic journey.
8. All those who have contributed in any way and whose names cannot be mentioned individually, thank you for your support in completing this Final Project.

I am aware that this Final Project is still far from perfect. Therefore, constructive criticism and suggestions are greatly appreciated for future improvements. I hope this Final Project will provide benefits and positive contributions to the advancement of knowledge, particularly in the field of Software Engineering.
