

PREFACE

Praise be to Allah SWT, the All-knowing, for abundant mercy and guidance. I am grateful that I have been able to complete my thesis entitle “**EXPLORING THE MECHANISMS OF DECENTRALIZED FINANCE (DEFI) USING BLOCKCHAIN TECHNOLOGY**”. This thesis was written to fulfill one of the graduation requirements of the Bachelor Degree (S1) Study Program Management in Business of Technology and Information (MBTI), Faculty of Economics and Business, Telkom University Bandung. In completing this study and writing this thesis, I receive enormous guidance, criticism, advice, and motivation from various parties. Therefore, I would like to extend my thanks to:

1. Mr. Dr. Andry Alamsyah, S.Si., M.Sc., as my supervisor for all the guidance, direction, advice, and support provided to me, enabling the successful completion of this thesis.
2. Mrs. Siska Noviaristanti, S.Si., M.T., Ph.D., as my academic advisor who has provided guidance to the author from the beginning to the end of the lecture.
3. All lecturers of the Bachelor Degree (S1) Study Program Management in Business of Technology and Information (MBTI) who have provided me with valuable knowledge and guidance throughout my education at Telkom University.
4. To my beloved parents, Puguh and Nuril and my siblings, Moza and Fikri thank you for all your support, love, attention, advice, prayers, and for always patiently handling me. I hope to make you proud.
5. Rizka, Diza and Hanim as best friends who always provide enthusiasm, motivation and are always there together in carrying out this research.
6. My friends are Sofia, Tasya, Niken, Iyel, Nina, Yaya, who provided much-needed support to the author.
7. Colleagues, Emil, Raras, Ica, Serly, Naufal, Balqis, Nadhif, who always provide support to each other in carrying out this research.
8. All parties who have been involved, either directly or indirectly, in helping the author complete this research.

The author would also like to express her deepest gratitude to all those who have helped in the smooth running of this research, both directly and indirectly. This

thesis can provide benefits and positive contributions to developing science and practice in the field. Amin.
