
LIST OF FIGURES

2.1	CNN Architecture Illustration	17
2.2	Transfer Learning Model Pre-Trained	18
2.3	The architecture of the MobileNetV2 network (Sandler et al., 2018).	19
2.4	Structures of the CBAM: (a) Overall structure of CBAM module; (b) Attention channel module structure; and (c) Attention spatial module structure (Niu et al., 2021).	21
3.1	Design Process	23
3.2	Ultrasound images from BUSI dataset.	24
3.3	Ultrasound images from Mendeley dataset.	24
3.4	Image format conversion.	25
3.5	Checking duplicate Ultrasound images from dataset.	25
3.6	Median filtering ultrasound images from dataset.	26
3.7	Resize ultrasound images from dataset.	27
3.8	Normalize ultrasound images from dataset.	27
3.9	Augmentation Flip Horizontal	28
3.10	Augmentation Flip Vertikal	29
3.11	Augmentation Zoom	29
3.12	MobileNetV2-CBAM Architecture	30
4.1	Accuracy and loss curves during training and validation processes.	37
4.2	MobileNetV2-CBAM and MobileNetV2 results shown in confusion matrices.	42
4.3	Comparison of confusion matrix for the other four models: (a) VGG-16; (b) VGG-19; (c) ResNet-50 and (d) InceptionV3;	42
4.4	Comparison of Grad-CAM Visualization MobileNetV2 and MobileNetV2-CBAM	45
A.1	Comparison of Grad-CAM Visualization MobileNetV2 and MobileNetV2-CBAM	72
A.2	Grad-CAM Visualization VGG-16	73
A.3	Grad-CAM Visualization VGG-19	73
A.4	Grad-CAM Visualization InceptionV3	74
A.5	Grad-CAM Visualization ResNet-50	74
