

THANK YOU NOTE

All praise and gratitude are due to God Almighty, whose blessings, grace, and guidance have enabled the writer to carry out and complete this Capstone Design Project, titled "Electrical Vehicle Powerline Communication." On this occasion, the writer would like to express sincere thanks to:

1. The writer's parents and family members who have consistently provided extraordinary support throughout the entire academic journey, from the beginning of the studies to the present moment. The smooth completion of this document is inseparable from the prayers and support offered by the writer's parents and family, whose blessings have enabled the successful completion of this final project.
2. Mr. Angga Rusdinar, S.T., M.T., Ph.D., and Mr. Irwan Purnama, S.Si., M.Sc.Eng., Ph.D. as the first and second supervisors, who have generously shared their knowledge, insights, and time to guide the writer.
3. Mrs. Novi Prihatiningrum, S.T., M.T., and Mr. Willy Anugrah Cahyadi, S.T., M.T., as the academic advisors for EL-44-INT, who have provided guidance throughout the writer's undergraduate studies in Electrical Engineering.
4. All members of the PNA_1 INACOS Laboratory team, who have been a source of discussion and mutual motivation to complete this Capstone Design Project.
5. The writer's partner, whose support played a significant role in the successful completion of this Capstone Design Project.

The writer is deeply grateful to everyone who contributed to the success of this project. Their support and guidance have been invaluable in overcoming challenges and achieving this significant academic milestone. The writer hopes that this project will serve as a meaningful contribution to the field and as a foundation for future endeavors.
