

LIST OF FIGURES

Fig 2. 1 illustration of the 16-Channel montage.	12
Fig 2. 2 illustration of ERP P300 detection.....	12
Fig 2. 3 Illustration of genes, chromosomes, and populations.....	14
Fig 2. 4 crossover process in GA.	16
Fig 2. 5 mutation process in GA.	16
Fig 2. 6 Position update in PSO	17
Fig 2. 7 illustration of pheromones in ACO,.....	19
Fig 2. 8 illustration of classification using Logistic Regression,.....	21
Fig 2. 9 Types of Voting Classifier,.....	22
Fig 3. 1 Contec KT88 Device	24
Fig 3. 2 16 Channel electrode cap.....	24
Fig 3. 3 displays the stimulus view on GNAT,.....	26
Fig 3. 4 illustration of data recording setup.	28
Fig 3. 5 video recording results during EEG data collection.....	29
Fig 3. 6 EEG signal recording results.....	30
Fig 3. 7 signal decomposition using ICA,.....	31
Fig 3. 8 Comparison of EEG signal plots before and after ICA	32
Fig 3. 9 comparison of EEG signal plots before and after filtering.....	32
Fig 3. 10 System Model of ERP Classification.....	34
Fig 4. 1 loss graph Logistic Regression for PR 02,	39
Fig 4. 2 loss graph Logistic Regression for PR 04	40
Fig 4. 3 loss graph Logistic Regression for PR 06.	41
Fig 4. 4 loss graph Logistic Regression for PR 07,	43
Fig 4. 5 loss graph Logistic Regression for PR 09,	44
Fig 4. 6 loss graph Logistic Regression for PR 02 using ACO feature subset	47
Fig 4. 7 loss graph Logistic Regression for PR 04 using ACO feature subset	49
Fig 4. 8 loss graph Logistic Regression for PR 06 using GA feature subset	51
Fig 4. 9 loss graph Logistic Regression for PR 07 using ACO feature subset	52
Fig 4. 10 loss graph Logistic Regression for PR 09 using ACO feature subset	54
Fig 4. 11 loss graph Logistic Regression for PR 02 using ACO B-SFS feature subset	57
Fig 4. 12 loss graph Logistic Regression for PR 04 using ACO B-SFS feature subset	59
Fig 4. 13 loss graph Logistic Regression for PR 06 using GA B-SFS feature subset	61

Fig 4. 14 loss graph Logistic Regression for PR 07 using ACO B-SFS feature subset	63
Fig 4. 15 loss graph Logistic Regression for PR 09 using ACO B-SFS feature subset	65
