

PREFACE

Praise and gratitude to God Almighty for all His mercy and grace so that the author can complete the thesis entitled “Multi-channel word embedding LSTM for Sentiment Classification in Twitter Dataset”. This thesis was prepared as one of the requirements to obtain a Master of Informatics degree at Telkom University. Therefore, the author would like to express sincere gratitude to several people who have helped in the completion of this thesis.

The author realizes that in the preparation of this thesis there are still shortcomings. Therefore, constructive criticism and suggestions are highly expected for future improvements.

Finally, I hope this thesis can provide benefits and positive contributions to the development of science, especially in the field of informatics and its application in social computing.
