

## DAFTAR GAMBAR

|                                                                                     |    |
|-------------------------------------------------------------------------------------|----|
| Gambar 2.1 <i>Hyperplane</i> optimal memiliki jarak maksimum antara titik data..... | 28 |
| Gambar 3.1 Diagram alir penelitian.....                                             | 35 |
| Gambar 4.1 Hasil tahap pengumpulan data .....                                       | 44 |
| Gambar 4.2 Distribusi label .....                                                   | 46 |
| Gambar 4.3 <i>Source code cleaning</i> .....                                        | 47 |
| Gambar 4.4 <i>Source code case folding</i> .....                                    | 48 |
| Gambar 4.5 <i>Source code tokenization</i> .....                                    | 50 |
| Gambar 4.6 <i>Source code normalization</i> .....                                   | 51 |
| Gambar 4.7 <i>Source code stopwords removal</i> .....                               | 53 |
| Gambar 4.8 <i>Source code stemming</i> .....                                        | 55 |
| Gambar 4.9 <i>Source code TF-IDF</i> .....                                          | 57 |
| Gambar 4.10 <i>Source code split data</i> .....                                     | 59 |
| Gambar 4.11 <i>Source code SMOTE</i> .....                                          | 60 |
| Gambar 4.12 Distribusi label setelah <i>SMOTE</i> .....                             | 60 |
| Gambar 4.13 <i>Source code implementasi naïve bayes</i> .....                       | 61 |
| Gambar 4.14 <i>Source code implementasi support vector machine</i> .....            | 63 |
| Gambar 4.15 <i>Source code evaluasi naïve bayes</i> .....                           | 64 |
| Gambar 4.16 Visualisasi <i>confusion matrix naïve bayes</i> .....                   | 65 |
| Gambar 4.17 <i>Source code evaluasi SVM</i> .....                                   | 69 |
| Gambar 4.18 Visualisasi <i>confusion matrix SVM</i> .....                           | 69 |
| Gambar 4.19 Perbandingan performa model klasifikasi.....                            | 74 |
| Gambar 4.20 Visualisasi <i>wordcloud</i> pada kelas positif .....                   | 75 |
| Gambar 4.21 Visualisasi <i>wordcloud</i> pada kelas negatif .....                   | 76 |
| Gambar 4.22 Visualisasi <i>wordcloud</i> pada kelas netral .....                    | 76 |
