

PREFACE

Praise and gratitude to God Almighty for all the love and grace that has been bestowed upon the author, so that the Thesis entitled MARITIME EARTH STATIONS IN MOTION (M-ESIM) TERMINALS TO 5G USER TERMINAL INTERFERENCE ANALYSIS IN UPLINK DIRECTION can be compiled as a requirement to pursue a master degree and complete education in the Master of Electrical Engineering study program at Telkom University, Bandung.

In writing this Thesis, the author realizes that there are still many shortcomings due to the limitations of knowledge. All constructive criticism and suggestions are very much accepted in order to improve the writing of this Thesis.

In closing, the author apologizes for any mistakes that the author has made, either intentionally or unintentionally, when completing this Thesis. Hopefully this Thesis can be useful for author, reader, and all circles in the world of education.
