

ACKNOWLEDGMENTS

The authors wish to express sincere and heartfelt gratitude to all those who have contributed their support, guidance, and encouragement throughout the course of this capstone design project. This work would not have been possible without the generosity, patience, and unwavering assistance of many individuals, whose contributions were instrumental to its successful completion.

1. First and foremost, all praise and thanks are due to Allah, the Most Gracious, The Most Merciful whose blessings and guidance have provided strength and clarity throughout this journey.
2. The authors extend their deepest appreciation to Ledy Novamizanti, S.Si., M.T., the primary supervisor, whose wisdom, kindness, and unwavering support have left a lasting impact on this work. Despite facing personal loss with the recent passing of her beloved husband, she continued to guide and inspire with remarkable strength and dedication. May Allah, the Most Merciful, continue to bless her with patience, wisdom, and resilience — both in her noble role as an educator and as a devoted mother. May He grant her ease in all affairs, and may her late husband be granted the highest place in Jannah.
3. The authors' gratitude is also extended to Dr. Gelar Budiman, S.T, M.T., the secondary supervisor, whose insights and guidance have greatly contributed to the development of this research.
4. Sincere thanks are given to Retno Hendriyanti, S.S., M.Pd., Ph.D., the academic advisor of our class, for her dedication and consistent encouragement and guidance throughout our studies.
5. The authors would also like to thank the entire class of TT-45-INT for their camaraderie and support, and for making our study in Telkom University a memorable one.
6. The authors would also like to thank the Nanosatellite Laboratory for providing the resources and workspace necessary for the research of this project.
7. The authors would like to express their heartfelt appreciation to each other for their dedication, collaboration, and support throughout the completion of

this project. Their contributions, ideas, and perseverance have been essential to the success of this project. It has been a great honor and pleasure to work together as a team in pursuing this research.

8. Lastly, special thanks are due to all lecturers, instructors, and staff members of the Bachelor's in Telecommunications Engineering Program, whose commitment to education has enriched our academic experience.
