

## DAFTAR ISI

|                                            |      |
|--------------------------------------------|------|
| LEMBAR PENGESAHAN .....                    | ii   |
| LEMBAR ORISINALITAS .....                  | iii  |
| ABSTRAK .....                              | iv   |
| <i>ABSTRACT</i> .....                      | v    |
| KATA PENGANTAR .....                       | vi   |
| UCAPAN TERIMA KASIH .....                  | vii  |
| DAFTAR ISI .....                           | viii |
| DAFTAR GAMBAR .....                        | xi   |
| DAFTAR TABEL .....                         | xii  |
| BAB I PENDAHULUAN .....                    | 1    |
| 1.1. Latar Belakang .....                  | 1    |
| 1.2. Rumusan masalah .....                 | 2    |
| 1.3. Tujuan Penelitian .....               | 2    |
| 1.4. Batasan Penelitian .....              | 2    |
| 1.5. Manfaat Penelitian .....              | 2    |
| 1.6. Sistematika Penulisan .....           | 3    |
| BAB II TINJAUAN PUSTAKA .....              | 4    |
| 2.1. Penelitian Terdahulu .....            | 4    |
| 2.2. <i>Yolov5</i> .....                   | 5    |
| 2.2.1. Bouding Box .....                   | 6    |
| 2.2.2. Intersection over Union (IoU) ..... | 7    |
| 2.3. Deep Learning .....                   | 7    |
| 2.4. Sholat .....                          | 8    |
| 2.5. Image Label .....                     | 9    |
| 2.6. Confusion Matrix .....                | 9    |
| 2.7. Non-Maximum Suppresion .....          | 10   |
| 2.8. <i>TensorFlow</i> .....               | 10   |
| 2.9. Kotlin .....                          | 11   |
| BAB III METODOLOGI PENELITIAN .....        | 12   |
| 3.1. Alur Penelitian .....                 | 12   |
| 3.2. Alat dan Bahan .....                  | 13   |
| 3.3. Perancangan Sistem .....              | 13   |

|                                                                       |    |
|-----------------------------------------------------------------------|----|
| 3.3.1. Preprocessing Gambar .....                                     | 13 |
| 3.3.2. Pembagian Gambar ke Grid .....                                 | 15 |
| 3.3.3. Anchor Box .....                                               | 15 |
| 3.3.4. Prediksi Bounding Box .....                                    | 15 |
| 3.3.5. Non-Maximum Suppresion (NMS) .....                             | 16 |
| 3.3.6. Hasil Deteksi .....                                            | 16 |
| 3.3.7. Penambahan Counter Rakaat .....                                | 17 |
| 3.3.8. Evaluasi Confusion Matrix .....                                | 17 |
| 3.3.9. Visualisasi UI .....                                           | 18 |
| 3.4. Pengujian dan Evaluasi .....                                     | 19 |
| 3.4.1. Pengujian Dataset.....                                         | 19 |
| 3.4.2. Skenario Pengujian secara Realtime .....                       | 19 |
| 3.4.3. Pengujian Data Statis .....                                    | 20 |
| 3.4.4. Pengujian Evaluasi Model.....                                  | 21 |
| 3.5. Activity Diagram.....                                            | 22 |
| 3.6. Squence Diagram .....                                            | 23 |
| 3.7. Flowchart Diagram.....                                           | 24 |
| 3.8. Jadwal Penelitian.....                                           | 25 |
| BAB IV HASIL DAN PEMBAHASAN.....                                      | 26 |
| 4.1. Pengumpulan Data .....                                           | 26 |
| 4.1.1. Sumber Data.....                                               | 26 |
| 4.1.2. Jumlah Dataset .....                                           | 27 |
| 4.2. Preprocessing Data.....                                          | 27 |
| 4.2.1. Pelabelan Dataset .....                                        | 27 |
| 4.2.2. Resize Dataset .....                                           | 28 |
| 4.2.3. Grayscale (konversi skala abu-abu) .....                       | 29 |
| 4.2.4. Normalisasi Pixel .....                                        | 30 |
| 4.3. Implementasi dan Evaluasi Model.....                             | 31 |
| 4.3.1. Training Model.....                                            | 31 |
| 4.3.2. Implementasi Pengujian Model <i>YOLOv5</i> .....               | 39 |
| 4.3.2.1. Pengujian statis melalui <i>val.py</i> .....                 | 39 |
| 4.3.3. Pengujian <i>Real-time</i> melalui <i>tes_deteksi.py</i> ..... | 43 |
| 4.3.4. Evaluasi Hasil Confusion Matrix .....                          | 44 |
| 4.3.5. Konversi <i>best.pt</i> ke <i>model.tflite</i> .....           | 45 |

|                                                      |    |
|------------------------------------------------------|----|
| 4.4. Implementasi Model di Andorid Studio.....       | 46 |
| 4.4.1. Persiapan Proyek Andorid Studio .....         | 46 |
| 4.4.2. Integrasi model Tflite ke Andorid .....       | 48 |
| 4.4.3. Deteksi Real-time dan Perhitungan Rakaat..... | 54 |
| 4.4.4. Skenario Pengujian dalam Sholat.....          | 55 |
| BAB V KESIMPULAN DAN SARAN.....                      | 59 |
| 5.1. Kesimpulan .....                                | 59 |
| 5.2. Saran.....                                      | 59 |
| DAFTAR PUSTAKA .....                                 | 61 |
