

PREFACE

All the praise and gratitude to Allah SWT for his permission, guidance, and blessings, the author was able to finish master's degree study and Thesis on time with the title **“Techno-Economic Analysis of NGSO Satellite in Comparison with Fixed Broadband Access Service: Case Study of Starlink and FTTx in West Java”** very well, to fulfill the requirements of graduating from Telkom University's Master of Electrical Engineering in Regulation and Management of Telecommunication Engineering (RMT) specialization.

The author is aware that this thesis is far near to a perfect result. Due to some limitations from the resource and the author has, this thesis contains shortcomings in this thesis in planning, analyzing the results. The author is open to constructive criticism and suggestions. Despite, the author hopes that this thesis could give new insight to the Regulation and Management of Telecommunication and could help for the further research of this thesis' research topic.
