

LIST OF FIGURES

Figure 1.1 Illustration of LOS and NLOS Indoor Localization.....	2
Figure 1.2 Signal Propagation and Phenomena [5].....	2
Figure 2.1 Flow Kalman filter [14].....	9
Figure 2.2 Rotation Algorithm Kalman filter [14].....	10
Figure 2.3 Ultra-wide band (UWB) Application[16].....	14
Figure 2.4 Multipath Propagation [5]	15
Figure 2.5 Essential UWB Benefits[16]	15
Figure 2.6 LOS Condition[17]	16
Figure 2.7 Illustration LOS and NLOS Condition.....	16
Figure 2.8 NLOS Condition[11]	17
Figure 2.9 Scheme Indoor Localization in the LOS and NLOS[18].....	17
Figure 2.10 Design 4 Anchor dan 1 Tag LOS and NLOS.....	18
Figure 2.11 Comparison Between SS-TWR (left) and DS-TWR (right)[21].....	18
Figure 2.12 Illustration Multilateration 4 anchors and 1 Tag[22].....	20
Figure 2.13 Modul UWB ESP32 Pro with Display[25].....	21
Figure 3.1 Flowchart Research	28
Figure 3.2 Block Diagram Research.....	30
Figure 3.3 Indoor Localization Testing.....	32
Figure 3.4 Design LOS Indoor Localization.....	33
Figure 3.5 Design NLOS Indoor Localization.....	34
Figure 3.6 Coordinate Point Plan Tag.....	34
Figure 3.7 Testing Data Collection Technique.....	35
Figure 3.8 Testing Data Processing Flow.....	36
Figure 3.9 Feature Comparison RX Power.....	36
Figure 3.10 Scheme Multilateration 4 Anchors and 1 Tag UWB.....	39
Figure 3.11 System Model without KF.....	39
Figure 3.12 System Model KF.....	40
Figure 3.13 System Model AKF.....	41
Figure 4.1 Visualization Positioning Between Actual Coordinate and Prediction	

(LOS/NLOS) Non Kalman Filter (KF).....	44
Figure 4.2 Visualization Positioning Between Actual Coordinate and Prediction	
(LOS/NLOS) Kalman Filter (KF).....	47
Figure 4.3 Visualization Positioning Between Actual Coordinate and Prediction	
NLOS KF and NLOS AKF	49
Figure 4.4 Visualization Error Position Between Ground Truth and NLOS	
AKF.....	51
Figure 4.5 Bar Chart Comparison Estimation Error from NLOS KF X NLOS	
AKF.....	52
Figure 4.6 Heatmap NLOS Adaptive Kalman Filter (AKF).....	53
Figure 4.7 Comparison Error Position Kalman Filter with Adaptive Kalman	
Filter.....	55
Figure 4.8 Comparison Value RMSE & MAE Kalman Filter with Adaptive	
Kalman Filter.....	57
Figure 4.9 Path Tracking Tag Testing Non-Line of Sigt (NLOS) Indoor	
Localization.....	58
Figure 4.10 Comparison Tracking Ground Truth Estimation Position Raw and	
Estimation Position Filtered Indoor NLOS Condition.....	60
Figure 4.11 Comparison Tracking NLOS KF x AKF.....	61
