

PREFACE

First of all, the author thanks to god and all those who support and assist the author in completing this master's thesis, entitled **POST-QUANTUM CRYPTOGRAPHY BASED ON KYBER-DILITHIUM SIGNCRYPTION FOR IOT SMART HOME**. This thesis is one of the requirements to complete the master degree study program in Electrical Engineering School of Electrical Engineering.

The author realized that this thesis is far from perfect, therefore suggestions and criticisms from readers are expected for future improvement. The author hope this master's thesis is useful for all of us.
