

LIST OF FIGURES

1.1	Global and Indonesian Satellite & Telecommunication Market Outlook (2024–2035)	1
2.1	Satellite Infrastructure.	8
2.2	Orbital Launches by Country in 2024-2025.	11
2.3	Overview of internet infrastructure network components, from international backbone to last-mile connectivity	12
2.4	Market projections for low earth orbit satellites.	16
2.5	Satellite Communications Market Size.....	17
2.6	Satellite Manufacturing Market Size and Growth 2025 to 2034.....	18
2.7	U.S. Satellite Manufacturing Market Size and Growth 2025 to 2034.	19
2.8	Small Satellite Market Size.	19
2.9	Bandwidth Demand by Application for Geostationary Orbit High-Throughput Satellites in Asia and the Pacific.....	20
2.10	Overall Shares of the High-Throughput Satellites Market Supplied by Non-Geostationary Orbit (Medium Earth Orbit and Low Earth Orbit) Satellites.....	21
2.11	Comparison between GSO and NGSO in terms of the number of launched satellites per year.....	34
2.12	Forward Band Working Frequency Sharing.	38
2.13	Forward Band Working Frequency Sharing.	40
2.14	Indonesia Satellite Communications Market Size	41
2.15	Basic SWOT Diagram.	44
3.1	Research Framework.	47
3.2	Demand Forecasting Research Flow	49
3.3	Regulatory Analysis Framework.	51
3.4	SWOT analysis.	52
4.1	Development of Satellite Technology	60
4.2	Increasing the Economic Value of Indonesian Satellite Filing.	62
4.3	Pro Active Filing for VSAT Operators.	63
4.4	Dooms Day Scenario.	64

4.5	Satellite Capacity Forecast vs. Demand Forecast (2025–2045) and the Projected Gap	66
4.6	GSO and NGSO Satellite Distribution by Domestic and Foreign Operators.	68
4.7	Urban-Rural Digital Divide in Indonesia.....	80
4.8	Internet Speed by Country in Mbps [muhamad2024secondslowest].	80
4.9	the presence of satellites as a strategic solution.....	82
4.10	article26.	86
4.11	article27.	87
4.12	Submission Conditions will affect the Complete Coordination Effort.	88
4.13	Satellite Filing Process at ITU.....	89
4.14	Overview of 2 PSI x 2 FA Satellite Coordination Complexity	89
4.15	The Relationship between Investment Risk, Financial Capabilities, and Satellite Operator Filing Strategies — showing potential upward or downward spiral outcomes.	94
