

ACKNOWLEDGEMENTS

First and foremost, the author expresses deep gratitude to God Almighty for His grace, guidance, and blessings in completing this thesis at the Electrical-Telecommunication Engineering Program, Telkom University.

This academic journey would not have been possible without the support and encouragement of many individuals. Therefore, the author would like to extend sincere gratitude to:

1. Allah SWT, who has granted me wisdom, patience, and the ability to overcome every challenge throughout this academic journey.
2. Dr.Ir.Heroe Wijanto,MT., my first thesis supervisor, for his valuable guidance, patience, and continuous support during this research.
3. Dr.Ir.Meiditomo Sutyarjoko,MSEE., my second thesis supervisor, for his constructive feedback, insights, and encouragement.
4. My beloved family, my father, Mr. Teddy Sudia, my mother, Mrs. Nunuy Nurwaliyah, my brother, Sanda and my sister, Hana for their endless prayers, love, and unwavering support.
5. Team leader and colleagues for their continuous support, motivation, and encouragement during this journey.
