

ACKNOWLEDGEMENTS

This thesis is compiled with the effort, help, and support from all supporting elements. The author would like to express the deepest gratitude and thanks to:

1. First and foremost, I express my deepest gratitude to Ida Sang Hyang Widi Wasa (the Divine Almighty) for granting me health, strength, and guidance throughout my research and thesis completion.
2. My Supervisors, my sincere appreciation to my advisors, Dr. Ida Waidah H., S.T., M.T. and Prof. Dr. Farida T. K., S.E., M.Si. for their invaluable mentorship, patience, and relentless encouragement to meet deadlines. Special thanks to Dr. Doan Perdana, S.T., M.T. for the opportunity to contribute to the Si Soil project, which enriched my academic journey.
3. My Parents, to my beloved mother and father, thank you for your unwavering moral support during my Master's studies in Electrical Engineering. Your prayers and belief in me were my anchor.
4. My Colleagues, to my IT Application Support team Bank Mandiri, especially the IT Core Banking System division—thank you for your flexibility and understanding during my thesis writing. Your camaraderie made this journey lighter.
