

PREFACE

Praise and gratitude to Allah Subhanahu Wata'ala, whose blessings and grace made it possible to complete this Undergraduate Thesis titled:

"WEBSITE DEVELOPMENT FOR STAFF MANAGEMENT AND STAFF ATTENDANCE MODULE AT THE ROOM 19 LIBRARY"

The completion of this thesis is a significant milestone in the author's academic journey within the Information Systems Undergraduate Program at Telkom University's Faculty of Industrial and Systems Engineering. The author acknowledges that this achievement was only possible through the immense support, guidance, and prayers from many individuals who contributed directly and indirectly. On this occasion, the author wishes to express deep gratitude to the following people:

1. Beloved parents, father and mother, for their sacrifices, endless love, moral support, and prayers. The author is profoundly thankful for a family that provided constant encouragement and trust throughout this educational journey.
2. Mr. Dr. Sinung Suakanto, S.T., M.T., and Mr, Ir. Ahmad Musnansyah, M.Sc., as supervisors of this Undergraduate Thesis, for their time, attention, patience, and for sharing their knowledge and providing valuable suggestions that were instrumental in completing this thesis.
3. Mr. Luthfi Ramadani, S.T., M.T., Ph.D., as academic advisor, for the direction, motivation, and guidance provided from the beginning of the author's studies until the completion of this Undergraduate Thesis
4. My closest friends throughout my university years, Athar, Wanni, Natalie, Sauri, Bira, Chai, Feliks, and Sausan, who offered unwavering presence, patience, and motivation from the start to finish, sharing stories and laughter while overcoming academic challenges together.
5. Fellow undergraduate thesis colleagues, Naufal, Wildan and Rachma, for their invaluable collaboration, enthusiasm, and support throughout the entire process of this work.

The author realizes that this Undergraduate Thesis is far from perfect and therefore welcomes any constructive criticism and suggestions for future improvement. Finally, it is the author's hope that this research provides benefits and makes a positive contribution to the advancement of knowledge in Information Systems and to all who may find it useful.
