ABSTRAK	v
DEDICATION	vi
ACKNOWLEDGMENTS	vii
PREFACE	ix
CONTENTS	x
LIST OF TABLES	xii
LIST OF FIGURES	xiii
LIST OF TERMS	xiv
LIST OF NOTATIONS	xvi
1 INTRODUCTION	1
1.1 Background	1
1.2 Problem Statement	4
1.3 Objective and Hypotheses	5
1.3.1 Objectives	5
1.3.2 Hypotheses	5
1.4 Justification for Research	6
1.5 Scope and Delimitation	6
1.6 Significance of the Study	7
1.7 Structure of the Thesis	7
2 REVIEW OF LITERATURE AND STUDIES	9
2.1 Related Literatures	9
2.1.1 Tuberculosis Prediction on HIV Patients Using Gene Expression Data	9
2.1.2 Ensemble Learning using Machine Learning	10
2.2 Related Studies	11
2.2.1 Ensemble Learning	11

2.2.2	Firefly Algorithm	12
3	RESEARCH METHODOLOGY	15
3.1	Research Design	15
3.1.1	Dataset	16
3.1.2	Preprocessing	17
3.1.3	Splitting Data	17
3.1.4	Model Development	18
3.1.5	Evaluation Model	22
3.2	Experimental Scenario	24
3.2.1	Baseline Ensemble Learning	24
3.2.2	Parameter Exploration	24
3.2.3	Base Learner Comparison with Firefly Algorithm (FA)	27
3.3	Tools for Data Analysis	27
3.3.1	Programming Language and Environment	27
3.3.2	Libraries and Packages Used	27
3.3.3	Research Variables	28
4	PRESENTATION, ANALYSIS AND INTERPRETATION OF DATA	29
4.1	Baseline Ensemble Model Performances	29
4.2	Model Performance Analysis of FA-based Weighted Ensemble Models . . .	31
4.2.1	Parameter Exploration Results	31
4.3	Base Learner Comparison with Firefly Algorithm (FA) Optimization	48
5	CONCLUSION AND RECOMMENDATIONS	52
5.1	Conclusions	52
5.2	Limitation	53
5.3	Recommendations	53
	BIBLIOGRAPHY	55
	Appendices	59
A	DATASET AND CODE	61
B	Curriculum Vitae # Example	62
