ACKNOWLEDGMENTS

This thesis was completed with the support, guidance, and encouragement of many individuals. I would like to express my sincere gratitude and appreciation to the following:

1. Almighty God, for granting me strength, health, and perseverance throughout the research and writing process.
2. My thesis supervisor, Prof Adiwijaya and Mrs. Angelina for their invaluable guidance, constructive feedback, and continuous encouragement throughout the entire research journey.
3. All lecturers and academic staff at the School of Computing, Telkom University, for the knowledge, support, and academic resources provided during my study.
4. My beloved family, my beloved boyfriend Novaldy Fajarae, especially my parents, for their unconditional love, endless prayers, and constant support in all aspects of life.
5. My friends and fellow students who supported me in various ways (Riska, arbie, salsa, pot, mba riris), especially during discussions, collaborations, and difficult times during the completion of this thesis and My Friend that always support me Gengzzz, Sab, Leon, Munir and Widi
6. The institutions and individuals who granted access to data and tools essential for this research, for their cooperation and assistance.

This thesis would not have been possible without the contribution and support of all those mentioned above. Thank you.
