

CONTENT NETWORKING : Architecture, Protocols, and Practice

- Focuses on the principles that will give you a deep and timely understanding of content networking.
- Offers dozens of protocol-specific examples showing how real-life content networks are currently designed and implemented.
- Provides extensive consideration of content services, including both the Internet Content Adaptation Protocol (ICAP) and Open Pluggable Edge Services (OPES).
- Examines methods for supporting time-constrained media such as streaming audio and video real-time media such as instant messages.
- Combines the vision and rigor of a prominent researcher with the practical experience of a seasoned development engineer to provide a unique combination of theoretical depth and practical application.
