ACCOUNTING INFORMATION SYSTEMS

The tenth edition of accounting information systems continues to stress electronic commerce applied within the context of business processes, transaction cycles, and internal control. Detailed material on business processes and internal control is central to the topical organizational. An understanding of business processes is fundamental to contemporary auditing, and professional and legal considerations relating to an organization's internal control processes. Following a Business Process Approach, *Accounting Information Systems* stresses information, communication, and networking technology within the context of business processes, transaction cycles and internal control structure.
