

ABSTRACT

In order to running BMT Al Amin mission to fight against situated behind of people, its cooperate with the Mosque Domestic (RTM) Syamsul ' Ulum carry out the Program of Sister Movement Take care of the (GKA), representing integrated program of education bursary. This program offer an opportunity for donor / sister take care of to part take to to assist the sister or brother take care of from items facet, in the form of financing to requirement of sister or brother education take care of. It is hence made by an system which can assist the business of which deal with GKA.

Specially in financial system and database of sister and sister or brother take care of the financial system and administration of arrangement of sister and sister or brother take care of at GKA BMT Al Amin STT Telkom made in manual of at its practice unable to give the information of usage of budget of finance and arrangement of database of sister or brother, finally will have an effect on to its tardy is fund channeling for the bursary of that sister or brother take care. So will be made by Information System of Sister Movement Take Care Of The BMT Al Amin, the system saves of data of transaction of finance and database of sister and sister or brother take care. Also of at this system will be made by a system representing medium for the memory of or reminder for the sister of take care of which is gone beyond pay for the donation fund become the comitmen from the sister take care. System made in such a manner so that existing work earn the is finished.

Development of information system of finance and administration of GKA BMT Al Amin this use the method waterfall. For the implementation of its use the software PHP and Mysql for the database. And for the tool of scheme of data stream use the Microsoft Office Visio.
