

## **Abstract**

Culture is a very important aspect that characterizes a nation. But in line with the times and the higher the globalization of western culture that enter into Indonesian, the culture that we have, also fading. Without we knowing, identity, nationalism and nation's unity slowly started to eroded. Even, our youth more know about another country songs than our national anthems.

To solve this issue, we built mobilephone game that has educative aspect and reflects national culture in Indonesia. to introduce national anthem since early age in a creative way and to build nationalism toward Indonesia, where this educational game will be made in accordance with the changing times, so that the spreading of this education can be done anytime and anywhere.

This game takes the theme of children and Indonesian culture by playing Indonesian anthems. The objective of the game is that the player knows national songs directly.
