Mengapa Melakukan Publikasi Ilmiah

Surat Edaran Dirjem Dikti Nomor
152/E/T/2012 tentang Publikasi Karya
Ilmiah:

“Terhitung kelulusan setelah Agustus 2012,
untuk lulusan program sarjana harus
menghasilkan makalah yang terbit pada
jurnal ilmiah”

Siklus Publikasi Ilmiah

Informasi Ilmiah sebagai Literatur

Fungsi

- Memperdalam pengetahuan tentang bidang yang diteliti
- Mengetahui hasil penelitian yang telah dilaksanakan dan saling berkaitan
- Mengetahui perkembangan ilmu pengetahuan pada bidang yang diteliti
- Memperjelas masalah penelitian

Jenis

- Artikel dari jurnal
- Bab Buku (Book Chapter)
- Prosiding (Makalah yang dipublikasikan melalui konferensi)
- Tesis dan Disertasi
- Laporan
- Text Book

Akses Data Buku Cetak

Indeks Bibliografi Indonesia
<http://onesearch.id/>

The screenshot shows the homepage of the Indonesia OneSearch website. At the top, there is a navigation bar with links for 'Tentang IOS', 'Organisasi Mitra', 'Masuk', and 'Bahasa In'. The main header features the 'Indonesia OneSearch by PERPUSNAS' logo and a tagline: 'Satu pintu pencarian untuk semua koleksi publik dari perpustakaan, museum, arsip, dan sumber elektronik di Indonesia'. Below this is a search bar with the placeholder text 'Cari buku dan e-resources' and buttons for 'Semua Kolom', 'Cari', and 'Lanjutan'. The main content area is divided into two columns: 'Koleksi' and 'Sektor'. The 'Koleksi' section states that there are 3,858,132 entries and describes the automatic harvesting process. The 'Sektor' section lists various library types and their counts: Library (3,516,330), University (2,044,405), National (706,177), Public (574,204), Special (141,550), and School (49,994).

Indeks Bibliografi Dunia
<https://www.worldcat.org/>

The screenshot shows the homepage of the OCLC WorldCat website. At the top, there is a navigation bar with links for 'Home' and 'Search'. Below this is a cookie notice: 'This site uses cookies. By continuing to use the site, you are agreeing to OCLC's placement of cookies on your device. [Find out more here.](#)'. The main header features the 'OCLC WorldCat' logo. The main content area is a dark blue banner with the text 'Find items in libraries near you' and '2 billion items available here through a library'. Below this is a search bar with a dropdown menu showing 'Everything', 'Books', 'DVDs', 'CDs', and 'Articles'. The search bar has a placeholder text 'Search everything' and a search button. Below the search bar are links for 'Advanced search' and 'Find a Library'. At the bottom of the banner, there is a text: 'WorldCat connects you to the collections and services of more than 10,000 libraries worldwide' with a 'Learn more >>' link.

Akses e-Journal

Landasan

- SNI 7330:2009
- Perpustakaan Perguruan Tinggi
- Materi Perpustakaan Elektronik
- Perpustakaan menyediakan akses sumber informasi elektronik termasuk internet dan pangkalan data

- E-Journal = Jurnal Elektronik
- Sekumpulan artikel dari berbagai sumber, biasanya jurnal ilmiah, majalah, surat kabar yang dikumpulkan dalam satu database oleh vendor dan dapat diakses secara online, dan umumnya harus berlangganan. (DIKTI - 2008)

- Artikel Jurnal yang terindeks
- <http://scimagojr.com>
- Berbayar dan Openaccess

Penulisan Ilmiah

- Sumber kepustakaan
- Dikutip dalam naskah dan dicantumkan sebagai daftar Pustaka
- Gaya sitasi
- Bibliographic citation adalah suatu rujukan kepada buku, artikel, halaman web, atau produk-produk hasil penerbitan lainnya yang memberikan cukup rincian untuk mengidentifikasi produk penerbitan itu secara unik
- Sitasi digunakan untuk memberikan pengakuan karya sebelum atau merujuk kewenangan keilmuan
- Posisi sitasi : daftar pustaka (akhir artikel), bodytext, footnote, halaman khusus (Daftar Acuan/ Works cited)

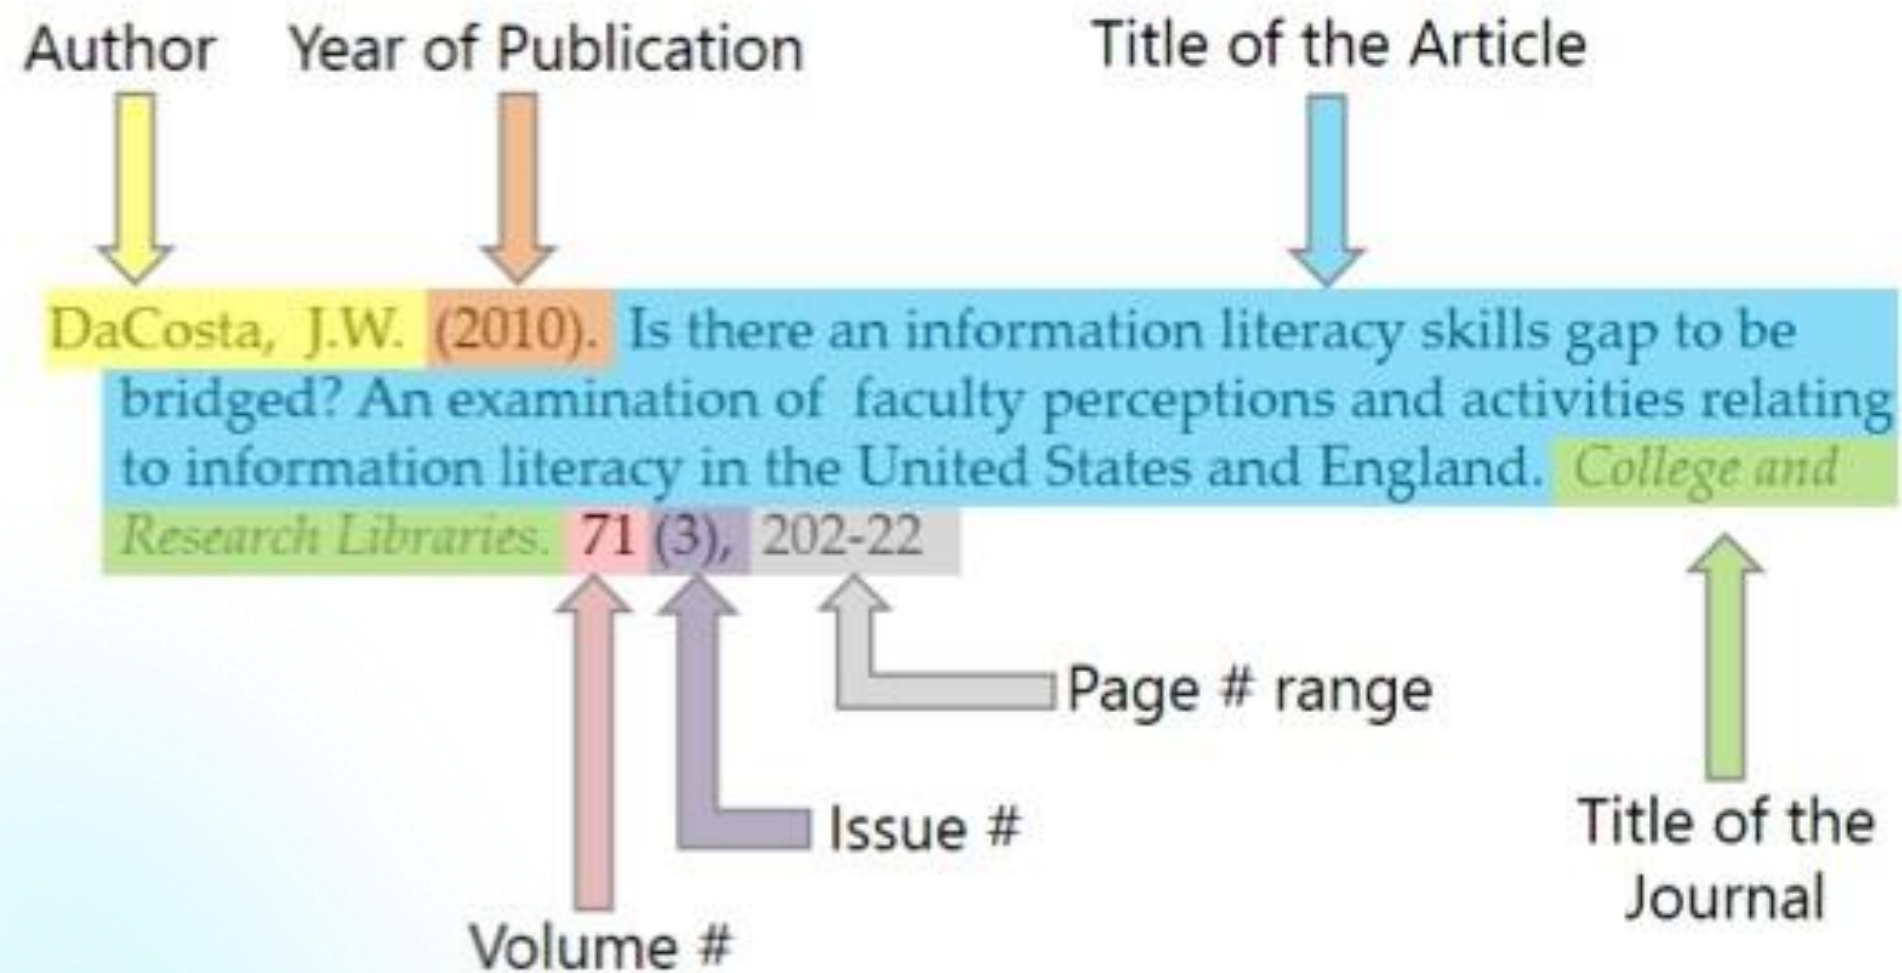

Gaya Sitasi

1. APA (*American Psychological Association*) untuk bidang psikologi, pendidikan, dan ilmu-ilmu sosial lainnya.
2. MLA (*Modern Language Association*) untuk bidang kesusatraan, literatur, seni, dan humaniora.
3. AMA (*American Medical Association*), untuk bidang kedokteran, kesehatan, dan ilmu-ilmu biologi.
4. Turabian (umum digunakan oleh mahasiswa untuk segala macam subyek).
5. Chicago (umum digunakan dalam berbagai subyek di dunia 'nyata' seperti buku, majalah, surat kabar, dan penerbitan-penerbitan lain yang bukan penerbitan ilmiah).
6. NLM (*National Library of Medicine*).
7. ACS (*American Chemical Society*).
8. APSA (*American Political Science Association*), untuk ilmu politik.
9. CBE (*Council of Biology Editors*).
10. IEEE style.
11. ASA (*American Sociological Association*).
12. Columbia style.
13. MHRA (*Modern Humanities Research Association*).

Citation to an Article from a Journal APA

The questions

Biodiversity informatics is a young field, with the earliest citation of the term only 12 years ago (Schalk, 1998). As a consequence, the field is still at an early stage in its development, and is evolving and extending, and developing its own literature and its own frameworks. However, in our view, the field appears to be growing in a void of overarching, motivating scientific questions, effectively making it a set of technologies in search of questions to address. That is, unlike other relatively new fields (e.g. phyloinformatics), biodiversity informatics currently exists without major, guiding goals that represent intellectual frontiers and challenges. This gap, we fear, leaves the field without a framework for effective thinking.

We do not purport to identify *the* questions for biodiversity informatics as a field in this commentary. Rather, we hope to propose ideas that can stimulate discussion of what these questions can be. Perhaps the broadest suite of goals for the field is not particularly difficult to envision ... something along the lines of *understanding the behaviour of evolving lineages across time, space, and*

type, genotype, environments, and biotic interactions ... in essence, the challenge of understanding 'space, time, and form' (Croizat, 1962; Nelson & Platnick, 1981). This statement, however, is so broad as to be almost uninformative, as it covers much of biology!

As a consequence, we offer this commentary on the present and future of the field of biodiversity informatics, as well as on its potential to grow and extend strategically as a discipline of inquiry. We envision biodiversity informatics as a vibrant field of inquiry with the potential to 'nucleate' new ideas and novel insights into some of the most interesting and important current challenges in organismal biology, going farther afield even than the big questions in systematics (Cracraft, 2002). Nonetheless, we see the current lack of guiding conceptual frameworks as retarding the advance of the field, with the potential to sideline it completely in terms of serious scientific relevance, ultimately turning it into a series of technological initiatives whose utility will forever be in the future. We hope that those researchers in related fields, who share a vision of a rich conceptual framework for biodiversity informatics, will step up to the challenge.

I. INTRODUCTION

e-Government has become an emergent multidisciplinary field of research [1]. e-Government is relatively a new research area [2]. The European Union (EU) defined e-government as about using the tools and systems made possible by Information and Communication Technologies (ICTs) to provide better public services to citizens and businesses [3]. More simple definition come from Heeks, he said that e-Government is the use of Information Technology (IT) by public sector organizations [9].

Because of its relation with IT, then most people

V. CONCLUSIONS

This paper has shown that qualitative interpretive research using hermeneutic can be conducted in the information systems research, especially in the e-Government research. The methodology of this research can give some consideration to other e-Government researcher.

The definition of e-Livestock in Indonesia has been validated to some experts and stakeholders in livestock in Indonesia. The definition has been adjusted through the research that being reported in this paper. The new definition of e-Livestock in Indonesia is “e-Government system that is mandatory for the identification, registration, documentation, and traceability of cows in Indonesia, starting from birth to death”.

Some Expected Benefits and Challenges also have been identified in this paper. The identified Expected

device. However, when we are asked to define what is e-Livestock. Maybe we will find it hard, because this is a relatively new term in e-Government [10]. Therefore, the appropriate e-Livestock definition is required. The definition should also be specific to a country, because the characteristics of each country is differs. Those definitions will affect the next steps in the implementation of e-Livestock in the country.

Ramadhan and Sensus have tried to define the e-Livestock in general [10]. Then Ramadhan *et. al.* has conducted a research to formulate the e-Livestock definition for Indonesia [11].

In this paper, the definition of e-Livestock for Indonesia, which has been formulated in [11], will be validated and adjusted based on input from several experts and stakeholders in the field of livestock in Indonesia. In addition, some expected benefits and

'How does Mendeley Help?'

Fitur Andalan Mendeley

1. Dapat berjalan pada MS Windows, Mac, ataupun Linux.
2. Menampilkan metadata dari sebuah file PDF secara otomatis.
3. Backup dan sinkronisasi data dari beberapa komputer dengan akun online.
4. *Smart filtering* dan *tagging*.
5. PDF viewer dengan kemampuan anotasi dan *highlighting*.
6. Impor dokumen dan makalah penelitian dari situs-situs eksternal (misalnya PubMed, Google Scholar, arXiv, dll).
7. Integrasi dengan berbagai perangkat lunak pengolah kata seperti MS Word, Open Office, dan Libre Office.
8. Fitur jejaring sosial.
9. iPhone dan iPad app.
10. *Free web storage* sebesar 2 GB yang dapat dimanfaatkan sebagai *online backup*.

5 Langkah dalam Mendeley

mendeley.com

The screenshot shows the Mendeley website homepage. At the top left is the Mendeley logo and name. At the top right are links for 'Sign In', 'Create account', and a 'Download' button. The main header features the text 'I  DISCOVERY' in large white letters. Below this is the tagline 'Mendeley brings your research to life, so you can make an impact on tomorrow'. A search bar is centered, with the text 'Search over 100 million cross-publisher articles and counting' above it. The search bar contains the placeholder text 'Search for articles' and a blue 'Search' button. Below the search bar, there are links for 'Popular searches: COVID-19 Bioenergy Obesity'. A red button labeled 'Create a free account' is positioned below the search bar. The bottom section of the page has a white background and features the heading 'Access your library, everywhere' in bold black text. Below the heading is a paragraph: 'Add papers directly from your browser with a few clicks or import any documents from your desktop. Access your library from anywhere.' To the right of this text is a faint illustration of a laptop, a tablet, and a smartphone.

Instalasi Mendeley

The screenshot shows the Mendeley website's download page for the desktop application. At the top, there is a navigation bar with the Mendeley logo, a search icon, and buttons for "Create a free account" and "Sign In". The main heading is "Download Mendeley Desktop for Windows". Below this, a green button with a downward arrow says "Download Mendeley Desktop". Underneath the button, it states "Latest version for Windows XP or later" and provides a link to "See release notes". To the right, there are links for "Mendeley Desktop for other systems": "Mendeley Desktop for Mac OS X 10.6+", "Mendeley Desktop for Linux", and "Mendeley for iPhone, iPod Touch and iPad" (noting it opens in the iTunes App Store). Below these, there is a section for "Current Development Preview" with a link to download the "current development preview". On the left side of the page, there are three feature highlights: "Let research fall into place" (collating PDFs), "Your ideas with your papers" (adding highlights and sticky notes), and "Generate citations in seconds" (inserting references and generating bibliographies).

The right sidebar shows the 'Details' view for the selected document. It includes a 'Type' dropdown set to 'Conference Proceedings', the title 'Knowledge sharing filtering on OAI-PMH', authors 'R. Yuliant, N. Karna', and a link to 'View research catalog entry for this paper'. Below this is the 'Proc. Title' '2016 International Conference on Information Technology Systems and Innovation, ICTSI 2016 - Pr...', the year '2017', and the 'Abstract' text.

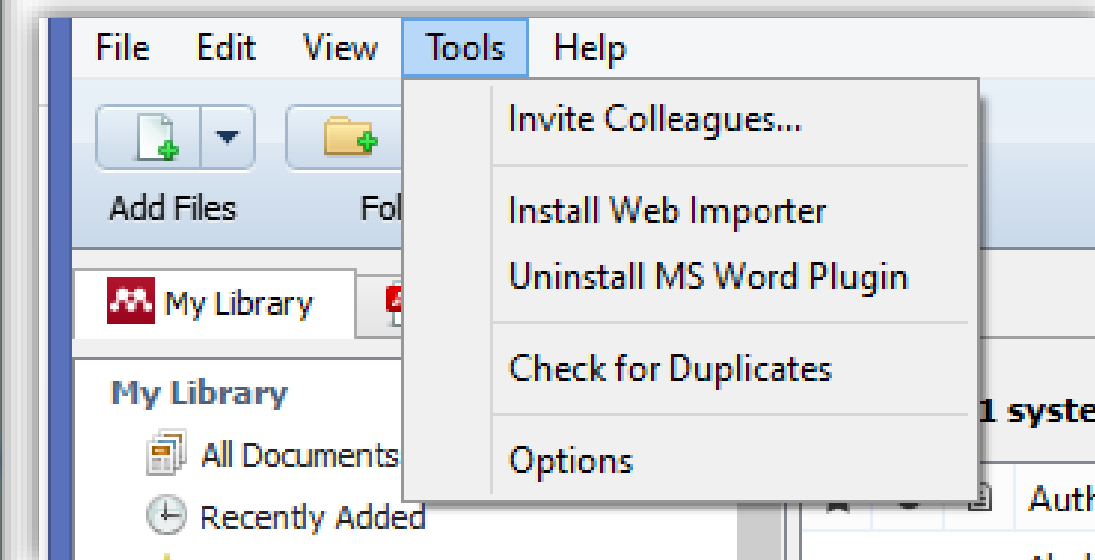

Abstract:
© 2016 IEEE. There are three kind of protocols available to establish knowledge sharing between agents like knowledge management system, web page, and expert system. All these three protocols are OAI-PMH, Semantic Web, and KQML. OAI-PMH developed and used by librarians as an excerpt of each document and it can be used as knowledge sharing system on metadata level. This is also the reason why PMH stands for Protocol for Metadata Harvesting. OAI-PMH make any data provider agents become open for any other harvester agents to harvest their metadata, as intended by Open Archives Initiatives. However, as open as their intention, there are some circumstances where some specific metadata are only intended for a specific harvester. Thus, this research propose a mechanism where a data provider can restrict access through credential filtering.

Abstract:

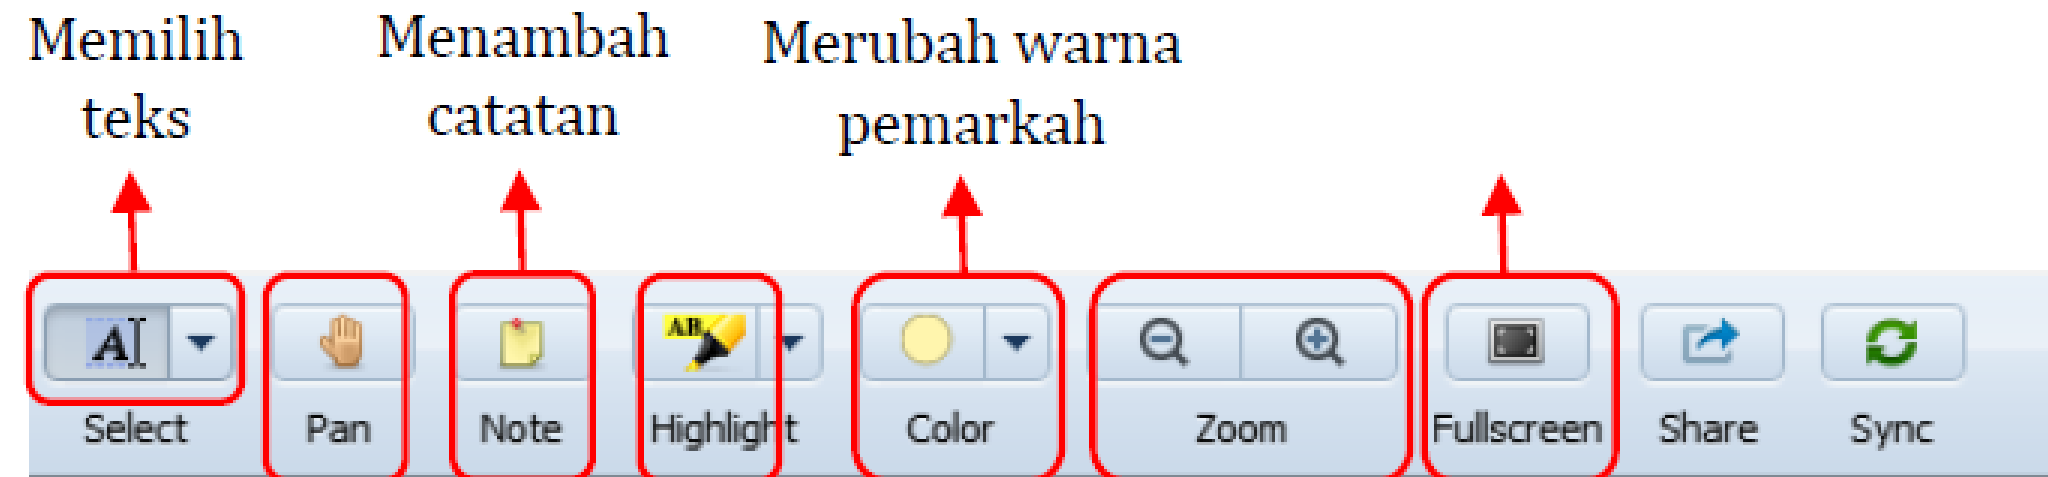

Global studies of transcript structure and abundance in cancer cells enable the systematic discovery of aberrations that contribute to carcinogenesis, including gene fusions, alternative splice isoforms, and somatic mutations. We developed a systematic approach to characterize the spectrum of cancer-associated mRNA alterations through integration of transcriptomic and structural genomic data, and we applied this approach to generate new insights into melanoma biology. Using paired-end massively parallel sequencing of cDNA (RNA-seq) together with analyses of high-resolution chromosomal copy number data, we identified 11 novel melanoma gen...

The screenshot displays the Mendeley Desktop interface. The main window shows a document titled "Level 2 Assesment [Yoka Adam Nugrahaa], owned by Yoka Adam Nugrahaa". The document is open in the "Notes" tab, which is circled in blue. The document content includes a table of authors and a detailed note about a MOOC program at ITB Central Library. Below the note, there are three private annotations, each with a yellow header and a trash icon. The annotations are:

- Annotation 1: "To be added..."
- Annotation 2: "How about Independent hub/community?"
- Annotation 3: "The American Corner ITB provide a local certificate (Certificate of attendance and a book related with the course)"

The interface also shows a sidebar with "My Library" and "Groups" sections, and a top menu bar with "File", "Edit", "View", "Tools", and "Help".

GENERAL NOTES

ITB Central Library through American Corner (a partnership program with US Embassy Jakarta, Indonesia) became a hub for U-Lab, a MOOC program from MITx in edX platform.

The Program co-hosted with US Embassy Jakarta and their American Corners network (local universities in Indonesia with a US cultural center). The Jakarta location will be the main hub, with local hubs (Bandung, Yogyakarta, Malang, Pontianak, Makassar, Ambon) joining in virtually during the weekly meetings.

These eight meetings activities in two month (Sep-Oct) programs located at the library give a new sight for the library in created a new library program. The new experience for the library in facilitate this event was same related with this article. The library can see the opportunity to facilitated the

iThenticate

The image shows a screenshot of the iThenticate website. At the top left, there is a red circular graphic. The website header includes the iThenticate logo, navigation links for Products, Content, Customers, Resources, and About, and buttons for Login and Buy Credits. The main banner features the headline "Prevent Plagiarism in Published Works" and two orange buttons: "Buy Credits" and "Get a Quote". A computer monitor displays a sample report with a "View demo" button overlaid. Below the banner, the "Verify Originality" section is divided into three columns, each with an icon, a key feature, and a "Learn more" link.

LANDASAN TEORI

2.1. Teori Tentang Konsep, Analisis dan Perancangan

2.1.1. Konsep Dasar Sistem

a. Definisi Sistem

Sistem dapat didefinisikan sebagaimana yang dikemukakan oleh Tata Sutabri (2012:13) adalah “suatu kumpulan atau himpunan dari unsur, komponen, atau variabel yang terorganisir, saling berinteraksi, saling bergantung satu sama lain, dan terpadu”. Dan menurut Sutarman (2012:13) adalah “kumpulan elemen yang saling berhubungan dan berinteraksi dalam satu kesatuan untuk menjalankan suatu proses pencapaian suatu tujuan utama”

Relation of Mass to Diameter in Neutron Stars

M. Asaroy

The combination of the radius and the mass of a star determines the surface gravity. Giant stars have a much lower surface gravity than main sequence stars, which is the opposite is the case for degenerate, compact stars such as white dwarfs. The surface gravity can influence the appearance of a star's spectrum, with higher gravity causing a broadening of the absorption lines.
